BRADENTOWN, FLORIDA

PREFACE

Is the capital of Manatee County, and is located on the south bank of the Manatee River, 45 miles south of Tampa, and only nine miles from the Gulf of Mexico.

In 1900 Bradentown was an unincorporated village of 350 people. In 1910, according to the United States census, she had in round numbers 1,900 population. A census taken by the City Council in 1915 shows that Bradentown has a bona fide population of 3,742.

The following improvements will show that Bradentown is a progressive little city, the kind that YOU would like to make a home in:

Tax assessment, 1911	$1,086,000
Tax assessment, 1913	2,543,529
Tax assessment, 1916	4,600,000

Has 16 miles paved streets; has 32 miles sidewalks; has 5 miles storm sewers. Has municipally owned waterworks. Fine electric light system. Public library. Splendid school system, including County High School.

Two railroads and boat line.

New public buildings—

County Court House	$100,000.00
High School	35,000.00
Baptist Church	22,000.00
Presbyterian Church	20,000.00
City Hall	7,500.00
Passenger Station	7,000.00

Bradentown has eight churhes, all the fraternal organizations, good hotels and boarding houses, and many of the handsomest residences to be found in South Florida.

It is located only one mile from Palmetto, and is joined on the east by Manatee, while Sarasota is twelve miles south. Being the county seat, Bradentown is naturally the commercial center of the county, and is easily accessible in all directions by good roads.

Bradentown has recently voted bonds for the purpose of building and maintaining a Municipal Golf Course and on the same tract of land will be located the Manatee County Fair Grounds, a baseball field and other amusement projects with which to entertain visitors and home folk.

If seeking a business location, a citrus grove or truck farm, a winter home or merely want to spend a few weeks for recreation, you can do no better than to purchase a ticket to Bradentown, where health conditions are unsurpassed and a delightful climate awaits you.

The Board of Trade has issued a booklet descriptive of this section and will be pleased to mail you one upon request.

"SEE FLORIDA FIRST"

A state oldest in white settlement and best in modern development. A state with a rare blending of the old and the new. A state where the products of the Temperate Zone and the Semi-Tropics meet on common ground and intermingling reach their highest estate—a state abounding in assets of Pure Air, Good Water, Generous Sunshine, Ample Rainfall, and Twelve Full Months in each year to grow Grain, Grass, Root and Fruit Crops and Live Stock—a state with gentle and healing winds bearing balsam from the pines and salt air from the seas—a state fast becoming the all year round playground, health resort and income producing region of the nation—a state to which the world is invited to come and study and enjoy by staying, prolong life and comfort.

W. A. McRAE, Commissioner of Agriculture.

MANATEE COUNTY'S PIONEER PUBLIC UTILITY

The Peninsular Telephone Co. Operating Exchanges at Bradentown, Manatee, Palmetto, and Sarasota. Also covering the County with a system of country lines. No County south of the Ohio River has as much underground and submarine cable per population as Manatee. We also have the largest number of telephones per thousand population.

TOLL LINE SYSTEM

Our Toll Line System is far in advance of our needs. We have installed what is known as the **"rapid fire system"** by which in connection with our Automatic Exchange in Tampa we can give you almost instantaneous connection with our Tampa Subscribers direct from here. The larger coppers wires used by us in our Toll Line System makes it possible for us to furnish service to New York and Chicago.

THE Sarasota Times

A Weekly Newspaper devoted to the interests of Sarasota and the Sarasota Bay District.

The oldest established business in Sarasota. Established 1899.

$1.50 a year, and worth it, in advance.

OF THE

"FAMOUS SARASOTA BAY DISTRICT"

Manatee County, Florida

Beautiful Land—locked harbor with the most scenic waterway of the world.

Surf Bathing, Boating, Fishing, and Hunting.

Write for information of this beautiful tropical city in the heart of the most productive trucking and fruit section of Florida, to the CITY CLERK, Sarasota, Manatee County, Florida.

Florida Farm Facts

You are now in the richest soil County in Florida, where frost is never known. 365 producing days.

We feel as you do, Mr. Homeseeker, that you are going to try to get the best, and we cheerfully invite you to inspect other lands, and before making your decision see us.

Our lands lie high, have pure water from flowing Artesian wells, and that delightful salt air from the Gulf.

We are offering these tracts at $50.00 per acre on terms of 5 per cent. cash and 3 per cent. monthly, no interest or taxes.

This is not all, Mr. Homeseeker, we will help you to get started. We will clear your land, plant trees, erect houses and drill wells on the same terms.

The Gulf Coast Railway, connecting with the Seaboard Air Line at Venice, will be in operation to Manasota by January, 1917, thereby giving quick transportation to the Northern Markets. Let us show you more of this wonderful section of Manatee County and the new town site Manasota.

PREFACE

"Beautiful Manatee" and "The Land of Manatee" are terms specifically applicable to this little city and its immediate surroundings. Here will be found all that is expressed or implied in these familiar designations as pertaining to delightful climate, fertile vegetable lands, abundant fruit production, healthful and attractive homes, enjoyable boating and fishing opportunities, and convenient transportation facilities.

In the important matters of schools, churches, stores, hotels, local newspaper, bank and professional services, Manatee is prepared to meet the needs of all its residents, permanent or temporary. The number of its permanent residents and of winter visitors is steadily increasing from year to year. A large proportion of attractive homes are owned and occupied by families who have recently come from the North. At the same time many of its most estimable and progressive citizens are of old Florida families dating back to the very earliest settlements in the state. The available rooms for winter visitors, while increasing in number from year to year, has never, of late, been sufficient to meet the growing demand. The city offers to homeseeker, to tourist, to agriculturist, to investor, attractions that are well worth looking into. Northern capital can here be profitably invested in grove or trucking lands, or in the erection of moderate priced homes or of rooming houses for the growing population.

The present town has 1,500 population. Under a new charter it is incorporated as a city with virtually a commission form of government. Its main streets are paved with brick with granite curbing. The city has a modern and complete sanitary sewer system, and a water system furnishing probably the best water in the State. The surrounding agricultural land cannot be excelled in Florida for fruit or vegetable growing or for general farming. It is certain that Manatee, attractive and beautiful already, will make notable progress in the next few years.

MISCELLANEOUS 1916-1917

Palmetto, Florida

PREFACE

Palmetto is a prosperous city of 2,500 inhabitants, located on the north bank of the beautiful Manatee River, which at this point is over a mile in width. Its people are progressive and believe that the best is none too good for their homes. Hence they have provided liberally all the conveniences of the modern city. Many miles of brick-paved streets and concrete sidewalks, electric lights for streets and houses, municipal water works and a complete sewer system are some of the features that add to the comforts of urban life here.

A wide-a-wake Board of Trade, a live Woman's Club, and a progressive newspaper are putting Palmetto more and more on the map.

Three churches, a modern high and graded school and a well equipped public library contribute to the spiritual and intellectual welfare of the community.

Palmetto has three factories worthy of mention. A cigar factory, where the well-known "Palmetto Straights" are made; an ice factory, with a daily capacity of 80 tons; and the Palmetto Novelty Works, which is conceded by lumber men to be the best equipped plant for its size in the state. There is nothing made of wood that cannot be turned out of this factory.

Palmetto's prosperity rests mainly on the agricultural wealth that abounds in the fertile fields which stretch back for miles from the banks of the Manatee. Two of the largest grape-fruit and orange groves in the world lie just outside the city, and numerous small groves of from five to twenty acres are found in all directions. Thousands of acres are planted annually in tomatoes, lettuce, peppers, celery and other vegetables that tempt the Northern appetite, while the wintry blasts are blowing. The products from these fertile fields make Palmetto the greatest shipping point in South Florida. Hundreds of car loads of fruit and vegetables leave this point annually, and the returns furnish the sinews that establish the permanence of Palmetto's prosperity.

Hundreds of acres of yet uncleared lands near here still await the sturdy settler who wishes to locate his home close to nature. Palmetto welcomes you!

Palmetto, Fla., Miscellaneous

PREFACE

No town on Florida's west coast has a more attractive setting than Sarasota and none has so many natural advantages to commend it for a tourist resort. Its location on a crescent-shaped bay, more beautiful than Naples, offers safe harbor for boats and fishing craft and is only two miles from where the blue waters of Mexico's Gulf break upon the white beaches of the verdant, outlying keys. In the bay, at the pass or out in the gulf no better fishing waters can be found in the State, whether one wishes to drop a line for the perch or grunts, fish for the wily Kings, troll for the redfish, go out of sight of land for the grouper or match strength and skill with the silver tarpon; and among the wealth of sea foods are found the oyster, the clam and the stone crab.

Sarasota is high and dry, no healthier place can be found in Florida. The refreshing gulf breezes temper the summer's warmest days and the nights are always delightfully cool and pleasant.

One mile of seawall is built along the bay front with a wide boulevard, beautifully parked. There are 8 miles of concrete asphaltic and brick paved streets and 14 miles of sidewalks within the city limits. Sarasota owns its own water works and its electric light plant, it has a high school, employing thirteen teachers, seven denominations are represented in its churches, eleven secret orders are among its organizations, a progressive Woman's Club is a factor in the social and civic life of the city, and two newspapers tell of its resources and advantages. In addition to these it has several hotels and all the business houses that a population of 2,800 demand.

Sarasota has two daily trains from Tampa which is 70 miles north. The district is now putting down roads from a $250,000 bond issue and a movement is being considered to build a golf course, costing $25,000 and a recreation pier at a cost of $18,000.

Sarasota is the coming city of the West Coast.

COME AND SEE!

CITY GOVERNMENT

City Officers

Mayor—H L Higel

Councilmen—First Ward, G L Roberts; Second Ward, K M Hebb; Third Ward, E J Bacon

BEE RIDGE—(Post Office) has the largest individual celery farm in the State, and this area of land is capable of producing maximum crops and a progression of them during the twelve months. The rich muck lands, which are being drained, have attained acreage yields of great value. The high pine lands for both citrus fruit and an adapted line of vegetables are equally as attractive. Several thousand acres are under development, and this spot will soon be surrounded by many well developed farms, yielding the long line of vegetables for which the section is famous.

MANASOTA—Is located on Lemon Bay, 27 miles south of Sarasota, Fla., in Township 40 S., Range 19 E. This town is being developed by the Southern Investment Company, who have plans under way for electric light and water plant. New Buildings are being constructed and many farms are being developed and put into cultivation. This town is reached by the Gulf Coast Railway, which connects with the Seaboard Air Line at Venice and the Charlotte Harbor & Northern at McCall in DeSoto County.
